INTRODUCTION

Soyntec thanks you for purchasing your Nexoos 390 Series, a HUB USB 2.0 with 7 Ports. We wish you enjoy using it.

Nexoos are using SSP (Smart Speed Processor) technology which prevents decreased performance when simultaneously connecting USB 1.x and 2.0 devices. A powerful 3.000mA power adaptor guarantees proper operation with power-hungry devices.

We suggest you read this user manual to enjoying this product in a safe way and with the best performance.

FEATURES

- Double Smart Speed Processor (SSP): prevents decreased performance when simultaneously connecting USB 1.x & 2.0 devices.
- 7 USB 2.0 ports: Transfers data up to 40 times faster.
- Hot swappable Plug & Play connection.
- Over current detection and protection for each down stream port.
- Compatible with Windows VISTA/XP/2000/98/ME, MAC and Linux.
- Nexoos 395 model use a 3.000mA power adaptor ensures proper operation with high power consumption devices.

Included in Nexoos 395 model

INSTALLATION

Please note that in order to install the 7 ports HUB you need a free USB connector in your computer.

Follow these steps to install it:

1. Connect the USB cable to the HUB, using the mini-B USB connector of the provided cable.

2. Connect the power adaptor to the HUB. (*)

3. Connect the other end of the USB cable, the "A" type connector, to a free USB port on your computer.

4. Optionally, you can use the stand to fix your HUB.

5. The HUB will be ready to use. Connect the USB devices that you wish to any of the seven available ports.

* NOTE: The power adaptor is adapter is optional, but it considers that without him, certain devices of high consumption (for example external hard disks or CD/DVD external recorder) can not work correctly.

SPECIAL GUARANTEE

Energy Sistem guarantees that your product does not have any material, design or manufacture defect and provides a 36 month guarantee.
